Dear Friend,

The California Department of Veterans Affairs publishes a comprehensive directory of resources and programs for all veterans, entitled **California Veteran's Resource Book**.

The book contains information on pensions, medical benefits, home loans, life insurance, claims assistance and employment services.

The book can be found on the Department's website. Go to www.cdva.ca.gov and click on "Vet Services."

Keep this bookmark as a reminder to look up this invaluable resource.

If the District Office can be of any assistance, please call the number listed above.

County Veterans Service Officer

Your local County Veterans Service Officer is your best resource for questions about benefits and other information. Look up the number for your county in the California Veteran's Resource Book.
